

VectorGlobal IAG Canada

VectorGlobal Investment Advisory Group Canada ULC

Portfolio Management Services

2021

VectorGlobal IAG Canada offers a suite of specialized investment strategies that are managed using a disciplined, data-driven and rules-based process that have generated above market returns. Each of our investment strategies have their own distinct style, objective, and risk characteristics to meet our clients' varying needs. We are active and decisive about when to take risk out of strategies and when to increase exposure. We reject the notion of holding investments through all market conditions and focus intensely on overall levels of demand and cash in the markets in order to avoid the steep and frequent drawdowns that characterize modern capital markets.

Product Summary

DISCLAIMERS

VectorGlobal Investment Advisory Group Canada ULC is a wholly owned subsidiary of Vectormex International.

Stock market indices and benchmarks, like the S&P 500 Index, are unmanaged groups of securities considered to be representative of the stock or bond markets in general or subsets of those markets, and their performance is not reflective of the performance of any specific investment. Investments cannot be made directly into an index or benchmark. Historical returns data are calculated using data provided by sources believed to be reliable, but no representation or warranty, expressed or implied, is made as to their accuracy, completeness or correctness. This information is provided "AS IS" without any warranty of any kind. Past performance is no guarantee of future results.

Data and information are provided for informational purposes only.

Transactions involving financial instruments mentioned herein may not be suitable for all investors. Please speak with your investment and tax advisor to understand whether or not these strategies are appropriate for you.

* Investment returns are expressed net of fees using an average of 1.25%
